DESIGNING SUPERIOR ENGINEERED SOLUTIONS

For over 76 years, **Winholt** a leading USA manufacturer with a global supply chain, has offered **innovation, experience, quality** products and trusted service. Winholt is headquartered in Woodbury, NY with three national manufacturing facilities in PA, TX and CA. This allows us to maximize our US manufacturing efficiencies, shorten lead times, reduce supply chain costs and expediate delivery. Our team strives to provide our customers with **Engineered Solutions** — focused products that drive efficiency and cost savings, while offering a Supply Chain Advantage to the industries we serve. ■ ■

OUR VISION

We will care for our customers, associates, suppliers, and community, and be the equipment leader in the industries we serve. ■ ■

OUR MISSION

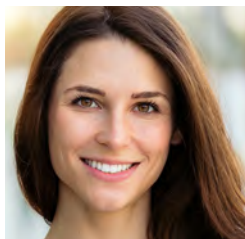

Using our experienced team of associates, we will provide our "We Care" culture to our customers by supplying value engineered solutions. ■ ■

OUR PEOPLE

Winholt's associates have supported the business for over 76 years. Their dedication is a testament to the success and longevity of our company. Winholt practices a "We Care" culture to be a positive influence and model of how business should be conducted for our customers, associates, suppliers and community. ■ ■

*"Our People
Make the Difference."*

MANUFACTURING CAPABILITIES

DESIGN & 3D CAD

Our engineers work in three-dimensional computer-aided design, to create design solutions which precisely represent and allow you to visualize your products. We help you to explore and share ideas, visualize concepts and simulate how designs will perform before they are made. ■ ■

MANUFACTURING

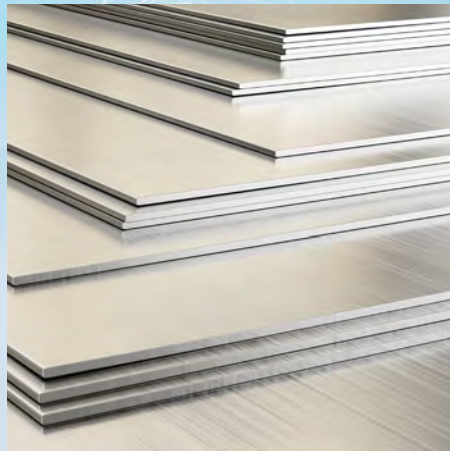

We manufacture using high quality, high precision equipment. Our capabilities include: CNC Automated Punch Cuts, Robotic Welding, Laser Cutting, CNC Forming and Bending, 3D CAD Modeling Design and Powder Coating. ■ ■

MATERIALS

Superior high quality materials, 300 series stainless steel in 16 gauge and 14 gauge, aluminum and steel manufacturing capabilities, make us stand out in the industry. ■ ■

QUALITY

Once welded, our products are polished, seam edges and welds are buffed to a clean bright shine. We quality-inspect each product to ensure that it is manufactured to the exact specifications, before it is crated and shipped. ■ ■

LASER CUTTING TECHNOLOGY

SYSTEMS & TECHNOLOGY

We continuously make improvements to enhance your experience as a Winholt customer — we have an industry-leading Enterprise Resource Planning (ERP) system to support our overall business operations, allowing us to achieve operational excellence and improve productivity while meeting your expectations. We offer our customers the opportunity for onboarding with electronic Data Interchange (EDI) to allow electronic communication for faster processing of purchase orders and invoices. In addition, we offer GS1 US system standards for unique product identification. ■ ■

ROBOTIC WELDING

Robotic welding systems maximize production efficiency with speed, accuracy, and consistency. We join together a variety of custom fabricated parts along with laser cut and formed parts to supply our customers with a higher level of assembly. ■ ■

LASER, CNC CUTTING & PUNCH PRESS

Allows us to minimize setup times and increase productivity to produce a wide range of parts in volume. The manufacturing process yields a high accuracy of parts - efficiently and quickly. ■ ■

OUR LOCATIONS

As a multiple-facilities manufacturer, we have the resources to quickly react and make changes where needed throughout the organization. Each of Winholt's manufacturing facilities operates on lean manufacturing, focused on quality, flexibility and cost for optimized performance. All of our manufacturing facilities have the capacity to produce product solutions in stainless steel, aluminum and steel. We continuously invest in automated equipment, adding to our US manufacturing efficiencies and shortened lead times. ■ ■

INDUSTRIES SERVED

Winholt is a global manufacturer of high-quality solutions-based equipment: E-commerce, supply chain fulfillment and order picking, distribution center, foodservices, food handling, along with material handling. Winholt supplies equipment solutions to **supermarkets, retailers, foodservice and restaurant chains, supply chain industries and e-commerce businesses.** ■ ■

FORK-LIFTABLE CAGED CART

- Constructed of steel, with powder coated gray body and powder coated shelves
- Caged on three sides to prevent merchandise from falling. Back of the unit opens for easy unloading
- Non-skid safety surface on the fold-up shelves to hold a variety of product sizes
- Ergonomically placed D-shaped handles
- Non-skid safety step when being lifted
- Load Capacity for each adjustable shelf 200lbs bottom shelf 600lbs

The unit is a perfect solution for order pricing in warehouses and distribution centers

Freight Class: 250

ST-OPP-4248H36

FORK-LIFTABLE ORDER PICKING

- Constructed of all steel, ensures durability and heavy duty use
- Powder coated gray,
- Diamond Steel top, prevents slipping
- Fork lift pockets available on both sides
- Raised top platform gives an ergonomic feature for easy order picking
- Raised platform prevents any physical strain on associates during order picking
- Load capacity 2000lbs

Model Number	Order#	Overall Dimensions			Approx. Ship Wt.

DISTRIBUTION TOW CART

- Constructed of all welded steel
- Powder coated silver finish
- Shelves fold up and are held with slotted hinges
- Shelves can be lifted or folded when not in use
- Load Capacity per shelf is 500lbs, total of 1000 lbs
- Retractable sign holder can be used to label carts and destination locations.
- Tow hitch folds up when not in use

Shelves easily fold up, sides fold and units can be nested for storage

Rigid Caster with 5" Polyurethane Wheel 7414W (608833)

5" Polyurethane Wheel 7128 (122438)

Freight Class: 250

ON-LINE ORDER PICKING WORK STATION

- Constructed of all welded aluminum, powder coated red, light weight easily maneuvered
- Solid top offers additional working area
- Printer basket, utility shelf, bag holder, label roll rod, paper towel rod, water holder
- Weight Capacity: 40lbs per tote
- Holds 6 lugs for order picking, approx. 22" L x 15.25" W x 10" H, not included
- Vinyl grip handles assist in maneuvering the cart with ergonomic design

Multi faceted order picking cart, loaded with features, an all in one work station. Streamlines the picking process and increases production.

Insulated Heater Proofer

Enclosed Mobile Transport Cabinets

NHPL-1836C-ECOC

HEATER PROOFERS NON-INSULATED ECONOMY 100% PRE-TESTED ELECTRICAL ASSEMBLY

- Heavy Duty, aluminum construction designed for durability.
- Easy to Clean.
- Forced air design provides even heat distribution.
- 5" polyurethane plate casters for easy maneuverability and stability. Front casters are provided with brakes.
- Easy dual analog proof/heat control.
- "Proof/humidity" mode: Up to 95% humidity at 110°F (43°C)
- "Heat" mode: Maximum Temperatures up to 180°F (82°C)
- Corner bumpers provide protection to unit, associates & fixtures.
- Clear door, anodized aluminum frame will not dull. A tight fit gasket is installed on the inside door frame.
- Door opens 270°. Door lifts off for easy cleaning and accessibility.
- Control drawer is removable for quick and easy cleaning and maintenance.
- Drip trough catches condensation. Internal water pan collects condensation or is used in proofer mode.
- All controls are accessible without opening cabinet door. Easy to read real time LED thermometer display.
- Pan Capacity: 35 - 18" x 26" pans

Electrical specifications:

- 120 Volt-60 Hz, NEMA 5-15P
- 1440 Watts: 14.0 AMPS - Plug into any standard 110V outlet.

Winholt has 76 years experience as a stainless steel fabricator. Our quality products and trusted service will improve your cost-efficiency, provide you with a national supply chain advantage, increase productivity and enhance sanitation in your work space.

We design work spaces that are aesthetically beautiful and functionally efficient that will maximize work flow and streamline food production.

STAINLESS STEEL

Superior high quality materials, we use 16 gauge and 14 gauge exclusively, 300 series. Making us stand out in the industry, when other fabricators are using lighter gauges.

We Build To Your Specification

We build to your customized specification, to maximize work flow and streamline food production. Our team is focused on the details to supply you with the highest quality product. NSF and UL listed.

OVEN RACKS ALUMINUM & STAINLESS

Winholt offers a wide range of Oven Racks in all styles and sizes that are compatible to many leading oven manufacturers, they include:

- Revent
- Hobart/Adamatic
- Baxter
- Bakers Aid
- Lucks
- Gemini

Specifications:

- Constructed of all welded heavy duty stainless steel or aluminum.
- **Lifetime Warranty Against Rust**
- Angle pan slides will accommodate 18" x 26" or 20" x 30" bun pans, depending on the model to include: strapped bread pans, perforated screens, muffin pans and other pan types.
- Standard Runners are 1" x 1½" wide
- Available in End Load, Side Load and Double Side Load Models
- All racks are equipped with four 4" phenolic super high temperature wheels with zerk grease fittings for easier lubrication and longer life.
- Lifting devices are constructed of Stainless Steel, and are designed for optimum rotation for even heat distribution.
- Weight Capacity per Runner: **30 lbs**

**Oven rack specifications may vary
from oven to oven,
so please call us for a quote.
We want to ensure a perfect fit!**

- Allows easier & faster cleaning
- Fast replacement of wheels
- NSF approved
- Stainless & Aluminum Materials
- Use with any medium duty plate caster

Options Include:

- Tray Guards
- Special Slide Spacing
- Double Racks
- "B" & "D" Style Lifts
- Nesting Oven Racks
- Stainless Steel Plate Caster with Phenolic High Temp (B)

Suggested Lubricant for Casters:

*Low Corning 44 High
Temperature Bearing Grease*

- Medium Consistency
 - Resistant to Oxidation,
 - Moisture and Corrosion
- Rated: -40 to 425°F
-40 to 204°C

OVEN RACKS

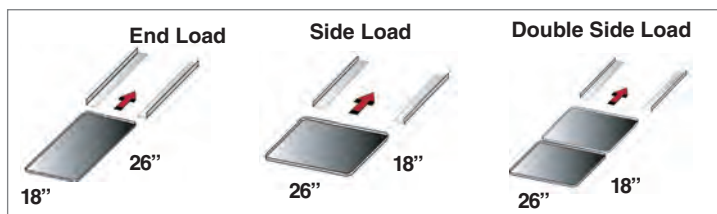

Winholt Equipment Group offers a wide range of Oven Racks in all styles and sizes that are compatible with many leading oven manufacturers.

CORR Correctional Package

INGREDIENT BINS, TRIPLE

- Heavy duty plastic bins are constructed of seamless, one-piece, sanitary polyethylene. Will not chip, corrode or rust.
- Bins are available in White, Yellow and Blue, to color code for easy product identification with clear plastic covers or aluminum covers.
- Ideal height, conveniently fits under work tables, saving valuable space.
- Heavy duty frame. Bins and lids are interchangeable with other brands.
- The frame is constructed of sanitary aluminum that will not rust and maneuvers easily on large 5" polyurethane casters.

Total Capacity per Bin

- 55 lb Flour (25 kg)
- 75 lb Sugar (34 kg)

FILM WRAPPERS

- Aluminum and stainless steel construction.
- **100% Pre-Tested**
- Sanitary and easily maintained, ETL Listed.
- Temperature controlled Teflon covered Hot Plate prevents sticking. Seals film to ensure food stays fresh and protected.
- Mounting Axle system.
- Cut off rod 265° - 310°
- Accommodates rolls of film up to 18" and 8" diameter. Core adapter holds film rolls with a 3" diameter core.
- Complete line of ETL Listed replacement parts. Our parts are fully compatible with other popular brands.
- State-of-the-art components ensure reliability and long life functionality.
- Electrical loop rated @ 8AMPS, 115 volts; Overall 750 watts.

Winholt offers a complete line of Film Wrapper Replacement Parts which are 100% Pre-Tested!

Our parts are fully compatible with other popular brands on the market.

CANTILEVERED SHELVING HEAVY DUTY ALUMINUM

- Maximizes storage, free Standing shelving allows access to all corners.
- **Lifetime Warranty Against Rust**
- Wall bolting not required.
- Perfect for coolers, freezers and backrooms.
- Holds up to seven shelves on 10" centers.
- Adjusts without tools-just lift and pull.
- **Shelves easily removeable for cleaning.**
- Posts are 72" high with front adjustable feet.
- Maximum capacity - 2,500 lb per section.

Easy to Assemble!

STARTER KIT

**STARTER KIT
INCLUDES**
(1) Right Upright
(1) Left Upright
(2) Cross Braces
(3) or (4) Shelves
(1) Hardware Kit

For a full run of shelving you only need (1) right upright and (1) left upright, connecting the shelf sections of the run with common uprights.

ADD-ON KIT

**ADD ON KIT
INCLUDES**
(1) Common Upright
(2) Cross Braces
(3) or (4) Shelves
(1) Hardware Kit

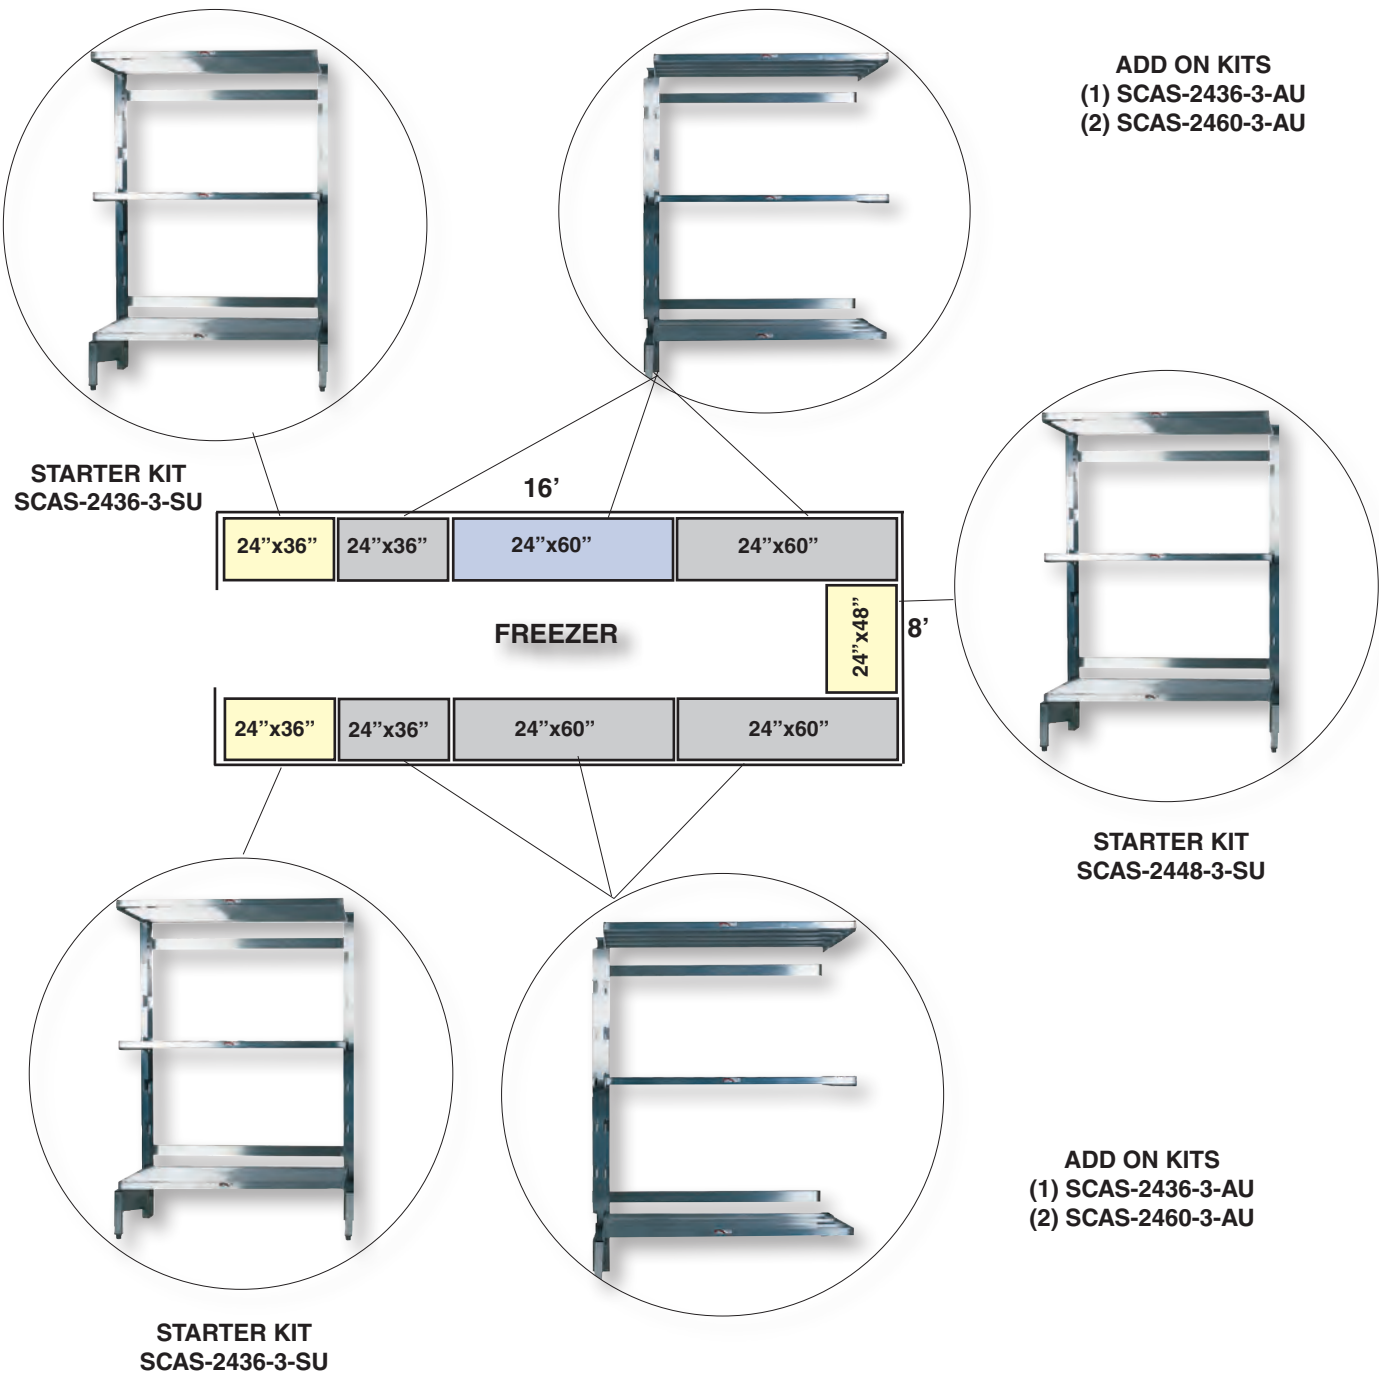

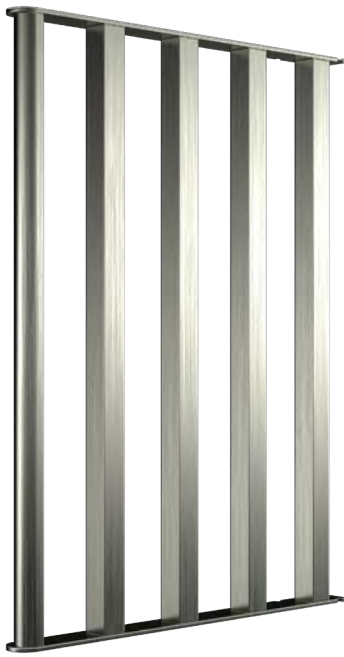

HOW TO ORDER YOUR SHELVING USING KITS:

To plan your cooler first confirm your inside cooler dimentions Build your unit beginning with a “Starter Kit” then select the appropriate “Add-On Kits” needed. To order this layout of shelving seen below you would order the following Kits:

Quantity	Model Number
(2)	SCAS-2436-3-SU
(2)	SCAS-2436-3-AU
(4)	SCAS-2460-3-AU
(1)	SCAS-2448-3-SU

SAMPLE FREEZER LAYOUT 16' X 8'

Tubular Shelving 1½" x 1½" aluminum tubing provides air circulation. 18" deep shelves have 4 tubes spaced 4" apart; 21" deep shelf has 4 tubes spaced 5" apart; 24" deep shelf has 5 tubes spaced 4" apart. Shelf Capacity - 900 lb (408 kg)

T-Bar Shelving 1" x 1½" T-Bar spaced 2" apart. Provides air circulation and allows boxes to slide on/off easily. Shelf Capacity - 700 lb (318 kg)

Solid Reinforced Shelving

Aluminum sheet with aluminum cross tubes underneath for support. Ideal for smaller merchandise. Shelf Capacity - 700 lb (318 kg)

E Channel Shelving 4" x 1½" aluminum 14 gauge "E" Channel. Provides increased surface area, yet allows for air circulation. Channel is welded inside a frame of tubing and flat bar. 18" & 21" deep shelves have 2 channels, 24" deep shelf has 3 channels. Shelf Capacity - 1,000 lb (454 kg)

DESIGN YOUR STORAGE SYSTEM - CANTILEVERED SHELVING

IT'S EASY WITH COMPONENT PARTS!

- You can design your storage system with our list of component parts.
- Maximize storage, free standing shelving allows access to all corners.
- **Lifetime Warranty Against Rust**
- Wall bolting not required.
- Perfect for coolers, freezers and backrooms.
- Holds up to seven shelves on 10" centers.
- Adjusts without tools-just lift and pull.
- Posts are 72" high with front adjustable feet.
- Maximum capacity - 2,500 lb per section.

CANTILEVERED SHELVING HEAVY DUTY ALUMINUM COMPONENT PART LIST

Ordering Instructions:

1.

Determine full shelving run length (i.e. 12 feet).

2.

Determine number of shelving sections required, using the least number of sections (a 12 ft run would use three - 4 ft sections).

3.

Select Shelf:

Type: Tubular, T-Bar, Solid or E-Channel

Depth: 18", 21" or 24" deep

Length for section: 3 ft, 4 ft, or 5 ft

Quantity per section: i.e. 4 shelves per section

4.

Order 3 ft, 4 ft, or 5 ft cross braces to match the section shelf size.

5.

Order a Left and Right Upright for each full run. Order Common Up rights for runs over 5 ft for use between sections.

6.

Order one Hardware Kit per section ordered.

ALSCS

Tubular Shelving

Great in freezers for increased air flow and where large boxes are stored. Shelf spacing on a 3 shelf unit is 22" and on a 4 shelf unit is 18". Capacity per shelf is 1500 lbs.

T-Bar Shelving

Great in cooler areas where small boxes and small food items may be stored. Shelf Spacing on a 3 shelf unit is 22" and on a 4 shelf unit is 18". Capacity per shelf is 1000 lbs.

To order T-Bar Shelving use the following:

Replace Prefix with "ALSTB" in the models in the chart.

Channel Shelving

This design gives you the best in strength and functionality. Stores boxes or small food items. Works great in dry storage, coolers and freezers. Shelf spacing on a 3 shelf unit is 22" and on a 4 shelf unit is 18". Capacity per shelf is 1500 lbs.

To order E-Channel Shelving use the following:

Replace Prefix with "ALSCH" in the models in the chart.

CORRECTIONAL ALL WELDED SHELVING

- All welded aluminum shelving for maximum weight capacities.
- Mitered corners help reduce contraband smuggling in correctional environments and increase strength and capacity of the unit.
- Plastic feet are standard.

Mitered edges are contraband proof corners

WINHOLT WHEELS & CASTERS

Wheel Terms

This diagram represents a basic wheel assembly. But this might vary from wheel to wheel. Please consult the wheel specifications.

Choosing a Caster

Load Capacity - Load capacity can be described as the maximum rolling capacity of the equipment based on what you will place on that equipment. **Load capacity** per caster can be determined using this simple formula:

$$\text{Load Capacity} = \frac{(\text{Cart Weight} + \text{Maximum Load Placed on Cart})}{\text{Number of Casters on Cart}}$$

$$\text{Example: } 75 + 800 / 4 = 219 \text{ lbs per caster}$$

We advise using your maximum load that might be used on the cart and not the average weight. The greater the weight the larger the wheel size should be to distribute the weight evenly. Always buy a caster with a higher rating than the load capacity formula. In our example of 219 lbs per caster you should go with a caster of at least 250 lbs. rolling capacity.

Proper maintenance and safety guidelines will extend the life and performance of your wheels. These easy to follow tips will assist you in achieving this goal.

1. Lubricate regularly, under normal conditions, approximately every six months. However, once a month may be warranted for applications in corrosive or wet conditions.
2. Check tread wear & swivel assemblies.
3. Do not roll at high speeds or on rough surfaces.
4. Do not exceed loads over the specified capacities.

Floor Surfaces										Easy Reference Wheel Selection Guide					Operating Conditions									
Carpet	Brick	Concrete	Linoleum	Asphalt	Terrazzo	Wood	Smooth Steel	Ribbed Steel	Tile	Wheel Type	Capacity of each	Temp Range	Durometer Ratings	Water	Steam	Mild Chemicals	Oil & Grease	Metal Chips	High Heat (+250°F)	Extreme Cold (-45°F)	Animal Fats	Noise Reduction	Floor Protection	Cushion Load

7322

OVEN RACK CASTERS - HIGH TEMP PHENOLIC WHEELS

- Molded macerated fabric with phenolic resin plastic.
- This hard tread wheel is designed for heavy load capacities and offers easy mobility over smooth surfaces and floor protection.
- The operation of the wheel is quieter than steel wheels and is resistant to most chemicals.
- High Temp Wheels are ideal for oven racks! Wheel includes bearing.

715

HAND TRUCK WHEELS

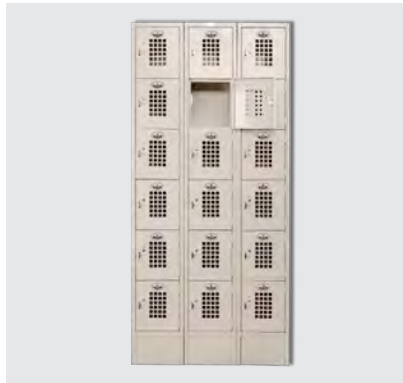

- Model 714 is a semi-pneumatic solid rubber tire on a steel wheel disk. Maneuvers easily on all surfaces. Wheel includes bearing.
- Model 715 is a Mold-On Rubber tread locked to an aluminum core.

Wheel Model	Wheel Type	Diameter (in)	Tread Width (in)	Bearing	Axle Size (in)	Hub Length (in)	Cap. (lb)
715	Mold-On Rubber	8	1-5/8	Ball	5/8	2	450

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

CUTOM DESIGNED SOLUTIONS

Innovation. Experience. Quality.

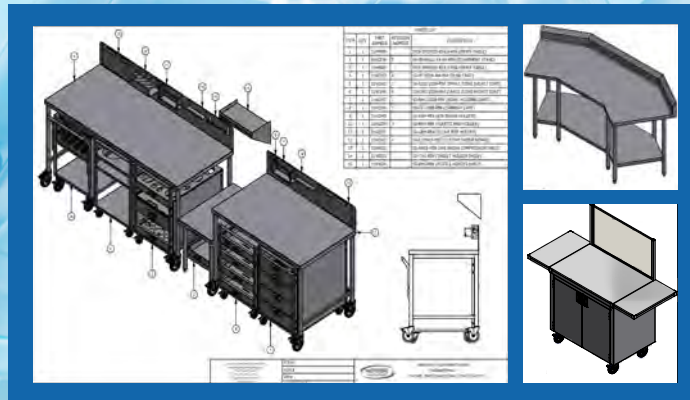

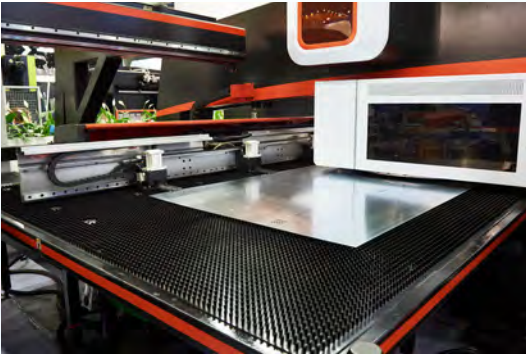

We Customize Design for Maximum Performance & Productivity.

Offering Manufacturing Flexibility with production in

Steel, Allumium and Stainless Steel. Our team strives to provide our customers

with Engineered Solutions – focused products that drive efficiency and cost

savings, while offering a Supply Chain Advantage to the industries we serve.
